

SIERRA ACADEMY TESTING REPORT 20-21

All Juniors at Sierra Academy of Expeditionary Learning were given the opportunity to take the Khan Academy SAT practice test. This test served an authentic purpose of SAT practice in our college preparatory school as well as provided immediate feedback and free SAT practice based on their scores.

71%

ENGAGED IN TESTING DURING THIS PANDEMIC

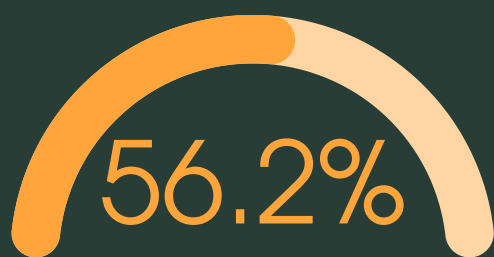

English: PSAT to SAT

Math: PSAT to SAT

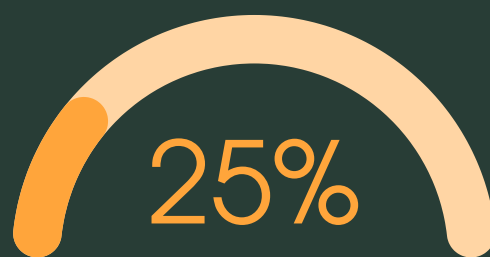

In normal years, all 11th graders and any 10th graders who would like to engage are supported to take the PSAT at SAEL and this will resume in school year 21-22. In 20-21, students took a PRACTICE SAT through Khan Academy in lieu of the PSAT. * Those PRACTICE SAT scores are included above. The Class of 2022 is also still in the process of taking the SAT. Students opt in to taking the SAT with the College Board directly so not all students at SAEL are required to take the SAT.

AT OR ABOVE STANDARD IN ENGLISH

18.75% were approaching standard and 25% were below standard. Although past SBAC scores for our 11th graders in 18-19 had higher Eng proficiency, these scores demonstrate maintenance or growth for the majority of our juniors since the 8th grade SBAC.

AT OR ABOVE STANDARD IN MATH

12.5% were approaching standard and 62.5% were below standard. Although past SBAC scores for our 11th graders in 18-19 had higher Math proficiency, these scores demonstrate maintenance or growth for the majority of our juniors since 8th grade SBAC.

We have invested in personnel, supplies, and experiences for the 21-22 school year to ensure there is more individualized support, more focus on character and culture with Crew, and more opportunities to connect with students to help them build on their strengths and get support for areas of growth.
